

Dear visitors

Welcome to the website of RTR Radiotelevisiun Svizra Rumantscha. We produce radio and TV programmes as well as online offerings with text, audio and pictures in Switzerland's fourth national language, Romansh. 170 employees (around 125 full-time equivalents) in the whole Romansh-speaking area and in Berne work on behalf of our audience. Our news journalists work to high quality standards, providing information about events in our region, in Switzerland and in the world. We also contribute to entertainment, education and integration. We don't just disseminate culture, we actively promote it. Our mandate is that of a public service, as set out by the Swiss Federal Council in the SRG SSR Charter. We follow technological developments closely – we want to be where our audience is.

The fact that our media house can work independently, that it can serve the widest possible audience and that it can train journalists so that they can carry out their work responsibly, professionally and credibly is due in large part to you. Around 70 percent of SRG's revenues come from licence fees, while 30 percent is generated with commercial revenues – such as TV advertising.

I would like to express my sincere thanks for this, for your interest and your positive attitude to our programmes.

I will be happy to receive your questions, your complaints – and of course your praise: ladina.heimgartner@rtr.ch; +41 (0)81 255 7575.

Ladina Heimgartner
Director RTR
